GRAMICID-PHB[P] PH Booster

GRAMICID – PHB [P] is formulated to increase the PH of water and also replaces soda ash and lime in water treatment.

SPECIFICATION:

Appearance	White Odorless powder
pH (as is)	Alkaline

BENEFITS:

- Cost effective program for boosting the PH.
- No adverse effects with repeated use of solution.

DOSAGE:

- GRAMICID-PHB [P] is dosed at 50ppm for increasing the PH of 1 full unit also depending upon the feed water characteristic and alkalinity requirements. (Example: from PH 6.0 to7.0)

There may be some variation in dosing procedure depending on system condition.

PACKING: GRAMICID-PHB [L] is available in 40Kg and 60Kg HDPE carboys.
